

**Diocesan Assembly  
Building and Grounds Report  
November 13, 2021**

Completed this year was the planting of 20 spruce trees along driveway to the chancery.

Bids for work to be done will be spaced out so that the checking account is not overdrawn, as was described in this year's budget.

I have done my best working with Archpriest Fr. Evansky and with the approval of the Archbishop to make sure the buildings and grounds are in good working order.

Due to my health, I am giving up the position of Buildings and Grounds Chair.

I do think that someone on the Diocesan Council should be Chair of Buildings and Grounds to coordinate with the approval of Council, Archpriest Fr. Evansky, and the Archbishop.

Respectfully submitted,  
Deacon Seraphim Truckley
